

# Design/Build Fall 2018

# CROATIA

Sept 23rd - Dec 5th

dept of landscape architecture  
university of washington

The Croatia Design/Build 2018 Fall Program offers a unique service learning opportunity in Rovinj on the Istra peninsula, North Adriatic coast. Students will design and build a physical therapy/sensory garden on the campus of the Orthopedic and Rehabilitation Hospital “Prim.dr.Martin Horvat”. The project will expose students to the inland continental and Adriatic coast of Croatia; two distinct parts of the country. Field trips to other regions will complement this project.

Undergraduate, graduate and non-matriculated students in landscape architecture, architecture, anthropology, fine arts and other fields may apply. Students will learn the skills of therapeutic garden design and construction detailing, management and community participation.

Informational sessions:  
Friday November 10, 12:00pm  
Monday November 20, 12:30pm  
Tuesday November 28, 12:30pm  
Gould Hall, RM 100
